PALATIAL POOL SERVICES

# Secure Vault

## Military-Grade Encrypted Document Storage

Secure Vault provides the highest level of document protection with military-grade encryption, role-based access control, and complete audit trails. Every sensitive document — from customer records to compliance certificates — is stored with enterprise-level security, ensuring your data is protected against unauthorised access and meets the strictest regulatory requirements.

## Key Benefits

- Military-grade encryption protects every document
- Role-based access ensures only authorised personnel see sensitive data
- Complete audit trails for full regulatory compliance
- Secure file deletion meets defence-grade standards
- Integration with corporate identity systems

## Technical Specifications

| | |
|---|---|
| **Encryption** | AES-128 to RSA-4096 configurable, HSM key management |
