PALATIAL POOL SERVICES

Technical Assistance Portal

Structured IT Support and Issue Resolution

The Technical Assistance Portal provides a structured, professional system for reporting and resolving technical issues. With priority-based routing, file attachment support, and resolution tracking, every issue is captured, assigned to the right specialist, and resolved efficiently — with complete transparency and accountability throughout the process.

Key Benefits

- Structured issue reporting with priority classification
- Automatic routing to the right specialist
- Full resolution tracking with time-to-close metrics
- File attachment support for screenshots and documentation
- Continuous improvement analytics identify recurring issues

Technical Specifications

Ticketing	UUID-based with category and priority classification
Routing	Priority-based automatic assignment algorithm
Security	AES-256 encryption, TLS 1.3, RBAC with OAuth 2.0
File Handling	Virus-scanned uploads with signed URL access
Integration	Gods Eye Command Centre for incident correlation
Compliance	OWASP Top 10, NIST SP 800-53, Australian Privacy Principles
