PALATIAL POOL SERVICES

Weather Intelligence

Predictive Scheduling and Weather-Adaptive Service

Weather Intelligence integrates hyper-local weather forecasting with our service operations to proactively protect your pool. By predicting the impact of storms, heatwaves, and heavy rain on your specific pool, the system automatically adjusts service schedules, pre-positions chemical treatments, and dispatches recovery teams — keeping your water perfect regardless of what the weather delivers.

Key Benefits

- Proactive service adjustments before weather events hit
- Pre-storm chemical treatment prevents algae blooms
- Automatic post-storm recovery scheduling
- Hyper-local forecasting specific to your property
- Reduced chemical waste through predictive dosing

Technical Specifications

Data Sources	Bureau of Meteorology, OpenWeatherMap, ESP32 ground-truth
Modelling	Precipitation dilution, thermal mass, wind/debris forecasting
Routing	Dynamic pre-storm and post-storm route optimisation
Integration	Gods Eye Command Centre, Calendar System, HydroCommand

Automation	Automated schedule adjustments and chemical directives
Validation	Ground-truth from proprietary sensor networks
