Pool Area Shield

Intelligent Safety and Compliance Monitoring

Pool Area Shield is our comprehensive safety monitoring system that uses advanced sensing technology to monitor pool areas for compliance, safety hazards, and environmental conditions. From fence integrity and gate compliance to water quality alerts and occupancy monitoring, it provides continuous protection and peace of mind for pool owners and operators.

Key Benefits

- Continuous safety and compliance monitoring around the clock
- Fence and gate compliance verification
- Environmental hazard detection and alerting
- Occupancy monitoring for safety management
- Automated compliance reporting for regulatory requirements

At a Glance

Monitoring: Fence integrity, gate compliance, occupancy, environmental conditions

Sensors: Multi-modal sensing array (RF, environmental, structural)

Alerting: Real-time notifications via Comms Hub

Compliance: Australian pool safety standards and regulations

Integration: Gods Eye Command Centre, automated reporting

Privacy: No optical surveillance — RF and environmental sensing only
